- Fully self-evaporating - no need to empty water container. Suitable for rooms up to 20m<sup>2</sup> at normal ceiling heights of 2.4m.
- Easy-to-set manual controls with remote control handset
- Compact and portable with wheels and handle for ease of movement.

## Models

Model No.	Product Description
AVAC9000	Portable Air Conditioner

## Dimensions

Dimension (mm)	Width	Height	Depth
AVAC9000	317	770	402

## Technical Details

Power Supply	220-240V/50Hz
Rated Cooling Capacity	9000BTU
Rate Input	1000W @ 4.5A
Energy Efficiency Class	A
Moisture Removal	22l/24Hr
Air circulation Volume	350m <sup>3</sup> /Hr
Refrigerant/Charge	R290/170g
IP Rang	IP24
Weight	20.5kg
Warranty	1 Year Exchange

## Performance Details

Specification	AVAC9000
Airflow m <sup>3</sup> /Hr	350
Removal Litres/24hr	22
Rated Cooling Capacity BTU/ kW	9000/2.6
Power (W)	1000

## Installation Information

Always unplug the air conditioner from the mains before cleaning.

To maximize the efficiency of the air conditioner, clean regularly.

### Cleaning the housing

Use a soft, damp cloth to wipe the body clean.

### Cleaning the filter

Use a vacuum cleaner or tap the filter lightly to remove loose dust and dirt from the filters and then rinse thoroughly under running water (no hotter than 40°C). Dry thoroughly before replacing.
